## **Prop. Reg. Section 1.199A-3(b)(2)(i)**

Qualified business income, qualified REIT dividends, and qualified PTP income

(a) In general. This section provides rules on the determination of a trade or business's QBI, as well as the determination of qualified REIT dividends and qualified PTP income. The provisions of this section apply solely for purposes of section 199A of the Internal Revenue Code (Code). Paragraph (b) of this section provides rules for the determination of QBI. Paragraph (c) of this section provides rules for the determination of qualified REIT dividends and qualified PTP income. QBI must be determined and reported for each trade or business by the individual or RPE that directly conducts the trade or business before applying the aggregation rules of §1.199A-4.

(b) Definition of qualified business income.

(1) In general. For purposes of this section, the term qualified business income (QBI) means, for any taxable year, the net amount of qualified items of income, gain, deduction, and loss with respect to any trade or business of the taxpayer as described in paragraph (b)(2) of this section, provided the other requirements of this section and section 199A are satisfied (including, for example, the exclusion of income not effectively connected with a United States trade or business).

(i) Section 751 gain. With respect to a partnership, if section 751(a) or (b) applies, then gain or loss attributable to assets of the partnership giving rise to ordinary income under section 751(a) or (b) is considered attributable to the trades or businesses conducted by the partnership, and is taken into account for purposes of computing QBI.

(ii) Guaranteed payments for the use of capital. Income attributable to a guaranteed payment for the use of capital is not considered to be attributable to a trade or business, and thus is not taken into account for purposes of computing QBI; however, the partnership's deduction associated with the guaranteed payment will be taken into account for purposes of computing QBI if such deduction is properly allocable to the trade or business and is otherwise deductible for Federal income tax purposes.

(iii) Section 481 adjustments. Section 481 adjustments (whether positive or negative) are taken into account for purposes of computing QBI to the extent that the requirements of this section and section 199A are otherwise satisfied, but only if the adjustment arises in taxable years ending after December 31, 2017.

(iv) Previously disallowed losses. Generally, previously disallowed losses or deductions (including under sections 465, 469, 704(d), and 1366(d)) allowed in the taxable year are taken into account for purposes of computing QBI. However, losses or deductions that were disallowed, suspended, limited, or carried over

from taxable years ending before January 1, 2018 (including under sections 465, 469, 704(d), and 1366(d)), are not taken into account in a later taxable year for purposes of computing QBI.

(v) Net operating losses. Generally, a deduction under section 172 for a net operating loss is not considered with respect to a trade or business and therefore, is not taken into account in computing QBI. However, to the extent that the net operating loss is disallowed under section 461(l), the net operating loss is taken into account for purposes of computing QBI.

(2) Qualified items of income, gain, deduction, and loss.

(i) In general. The term qualified items of income, gain, deduction, and loss means items of gross income, gain, deduction, and loss to the extent such items are-

(A) Effectively connected with the conduct of a trade or business within the United States (within the meaning of section 864(c), determined by substituting "trade or business (within the meaning of section 199A)" for "nonresident alien individual or a foreign corporation" or for "a foreign corporation" each place it appears), and

(B) Included or allowed in determining taxable income for the taxable year.

(ii) Items not taken into account. Notwithstanding paragraph (b)(2)(i) of this section and in accordance with section 199A(c)(3)(B), the following items are not taken into account as a qualified item of income, gain, deduction, or loss:

(A) Any item of short-term capital gain, short-term capital loss, long-term capital gain, long-term capital loss, including any item treated as one of such items, such as gains or losses under section 1231 which are treated as capital gains or losses.

(B) Any dividend, income equivalent to a dividend, or payment in lieu of dividends described in section 954(c)(1)(G). Any amount described in section 1385(a)(1) is not treated as described in this clause.

(C) Any interest income other than interest income which is properly allocable to a trade or business. For purposes of section 199A and this section, interest income attributable to an investment of working capital, reserves, or similar accounts is not properly allocable to a trade or business.

(D) Any item of gain or loss described in section 954(c)(1)(C) (transactions in commodities) or section 954(c)(1)(D) (excess foreign currency gains) applied in each case by substituting "trade or business" for "controlled foreign corporation."

(E) Any item of income, gain, deduction, or loss taken into account under section 954(c)(1)(F) (income from notional principal contracts) determined without regard to section 954(c)(1)(F)(ii) and other than items

attributable to notional principal contracts entered into in transactions qualifying under section 1221(a)(7).

(F) Any amount received from an annuity which is not received in connection with the trade or business.

(G) Any qualified REIT dividends as defined in paragraph (c)(2) of this section or qualified PTP income as defined in paragraph (c)(3) of this section.

(H) Reasonable compensation received by a shareholder from an S corporation. However, the S corporation's deduction for such reasonable compensation will reduce QBI if such deduction is properly allocable to the trade or business and is otherwise deductible for Federal income tax purposes.

(I) Any guaranteed payment described in section 707(c) received by a partner for services rendered with respect to the trade or business, regardless of whether the partner is an individual or an RPE. However, the partnership's deduction for such guaranteed payment will reduce QBI if such deduction is properly allocable to the trade or business and is otherwise deductible for Federal income tax purposes.

(J) Any payment described in section 707(a) received by a partner for services rendered with respect to the trade or business, regardless of whether the partner is an individual or an RPE. However, the partnership's deduction for such payment will reduce QBI if such deduction is properly allocable to the trade or business and is otherwise deductible for Federal income tax purposes.

(3) Commonwealth of Puerto Rico. For the purposes of determining QBI, the term United States includes the Commonwealth of Puerto Rico in the case of any taxpayer with QBI for any taxable year from sources within the Commonwealth of Puerto Rico, if all of such receipts are taxable under section 1 for such taxable year. This paragraph only applies as provided in section 199A(f)(1)(C).

(4) Wages. Expenses for all wages paid (or incurred in the case of an accrual method taxpayer) must to be taken into account in computing QBI (if the requirements of this section and section 199A are satisfied) regardless of the application of the W-2 wage limitation described in §1.199A-1(d)(2)(iv).

(5) Allocation of items among directly-conducted trades or businesses If an individual or an RPE directly conducts multiple trades or businesses, and has items of QBI which are properly attributable to more than one trade or business, the individual or RPE must allocate those items among the several trades or businesses to which they are attributable using a reasonable method based on all the facts and circumstances. The individual or RPE may use a different reasonable method for different items of income, gain, deduction, and loss. The chosen reasonable method for each item must be consistently applied from one taxable year to another and must clearly reflect the income and

expenses of each trade or business. The overall combination of methods must also be reasonable based on all facts and circumstances. The books and records maintained for a trade or business must be consistent with any allocations under this paragraph.

(c) Qualified REIT Dividends and Qualified PTP Income.

(1) In general. Qualified REIT dividends and qualified PTP income are the sum of qualified REIT dividends as defined in §1.199A-3(c)(2) earned directly or through an RPE and the net amount of qualified PTP income as defined in §1.199A-3(c)(3) earned directly or through an RPE.

(2) Qualified REIT dividend.

(i) The term qualified REIT dividend means any dividend from a REIT received during the taxable year which-

(A) is not a capital gain dividend, as defined in section 857(b)(3), and

(B) is not qualified dividend income, as defined in section 1(h)(11).

(ii) A REIT dividend is not a qualified REIT dividend if the stock with respect to which it is received is held for fewer than 45 days, taking into account the principles of section 246(c)(3) and (4).

(3) Qualified PTP income.

(i) In general. The term qualified PTP income means the sum of-

(A) The net amount of such taxpayer's allocable share of income, gain, deduction, and loss from a PTP as defined in section 7704(b) that is not taxed as a corporation under section 7704(a), plus

(B) Any gain or loss attributable to assets of the PTP giving rise to ordinary income under section 751(a) or (b) that is considered attributable to the trades or businesses conducted by the partnership.

(ii) Special rules. The rules applicable to the determination of QBI described in paragraph (b) of this section also apply to the determination of a taxpayer's allocable share of income, gain, deduction, and loss from a PTP. An individual's allocable share of income from a PTP, and any section 751 gain or loss is qualified PTP income only to the extent the items meet the qualifications of section 199A and this section including the requirement that the item is included or allowed in determining taxable income for the taxable year, and the requirement that the item be effectively connected with the conduct of a trade or business within the United States. For example, if an individual owns an interest in a PTP, and for the taxable year is allocated a distributive share of net loss which is disallowed under the passive activity rules of section 469, such loss is not taken into account for purposes of section 199A. Furthermore, each PTP is required to determine its qualified PTP income for each trade or business and report that information to its owners as described in §1.199A-6(b)(3).

(d) Effective/applicability date.

(1) General rule. Except as provided in paragraph (d)(2) of this section, the provisions of this section apply to taxable years ending after the date the Treasury decision adopting

these regulations as final regulations is published in the Federal Register. However, taxpayers may rely on the rules of this section until the date the Treasury decision adopting these regulations as final regulations is published in the Federal Register.

(2) Exceptions.

(i) Anti-abuse rules. The provisions of paragraph (c)(2)(ii) of this section apply to taxable years ending after December 22, 2017.

(ii) Non-calendar year RPE. For purposes of determining QBI, W-2 wages, and UBIA of qualified property, if an individual receives any of these items from an RPE with a taxable year that begins before January 1, 2018 and ends after December 31, 2017, such items are treated as having been incurred by the individual during the individual's taxable year in which or with which such RPE taxable year ends.
